Regulatory Readiness Diagnostic

Assess your organization's readiness for carbon reporting requirements and Bill C-27 (AI governance). This diagnostic evaluates governance across Structure, Systems, and Execution.

STRUCTURE (Governance & Accountability)

- 1 Clear executive ownership of carbon reporting
- 2 Defined accountability for AI systems
- 3 Documented decision rights across functions

SYSTEMS (IT, Data & Reporting)

- 1 Carbon data integrated with ERP/financial systems
- 2 Traceability of AI-driven decisions
- 3 Consistent and auditable data architecture

EXECUTION (Processes & Enforcement)

- 1 Governance embedded in workflows
- 2 KPIs aligned to regulatory requirements
- 3 Vendor accountability tied to performance

Scoring:

0–20: Fragmented

21–40: Developing

41–60: Structured

60+: Integrated
